FA 45 Code reader V5

Top class code-reading performance – with ISO and AIM quality parameters

Sensopart

The new version 5 of the FA 45 code reader is now much more versatile thanks to an improved read algorithm and a considerable expansion to the range of functions.

Barcodes and data matrix codes can now also be reliably read at a greater distance and from any angle. Thanks to integrated ISO and AIM quality parameters, the new code reader enables informative analysis of printed and direct part marked barcodes.

SensoPart is also reselling high-capacity hand-held readers, which are often indispensable during order picking at the end of a production line. Your complete ID solution is thus now available from one source!

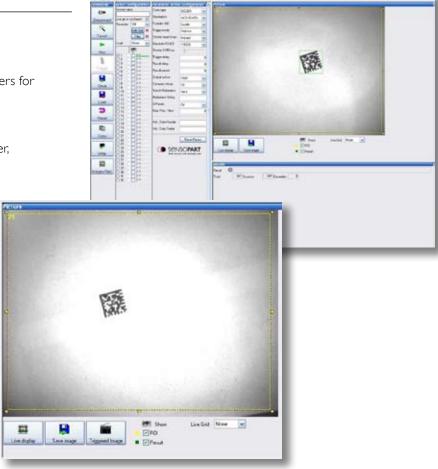

Compact, robust and versatile

The FA 45 vision sensor is the compact and robust solution for the most demanding detection tasks with its 45 x 45 x 65 mm dimensions. Other product variations for object and colour detection are also available in addition to the code reader version described here. The FA 45 is optionally available with integrated lighting and lens or with a C-mount connection and is particularly versatile thanks to an extensive range of accessories.

A SUMMARY OF THE NEW FUNCTIONS:

- New improved read algorithm for barcodes
- Many additional barcode types can be read
- Analysis against ISO and AIM quality parameters for printed and direct part marked codes
- Focussing aid for simpler focus adjustment
- Flexible definition of serial output data (header, trailer, net data)
- Ethernet/IP and DHCP support
- 3 configurable result outputs
- Operator mode with PC viewer (image and result display, upload of configurations and image recording)
- · Cycle time display also in triggered mode
- Optional image and result display on separate 5.6" touch screen (Vision Viewer CE, available as accessory)

FA 45 Codereader V5

Electrical data		
Typ. cycle time	100 ms (1 evaluation)	
Operating voltage	24VDC +/- 10 % (absolute	
	maximum values 18-30V)	
Residual ripple	< 5 V ss	
Current consumption (without I/O)	max, 200 mA	
Inputs INI / IN2	High 10 24V (+10 %), Low 0 3\	
Trigger input	rising edge, 10 V Ub	
Outputs OUT 1 4	PNP (N.O., Pull-up-MOSFET)	
Output current (per output)	200 mA (max. 9.6 W)	
Short-circuit protection (all outputs)	yes	
Reverse battery protection	yes	
Interfaces	Ethernet (LAN), RS422	
Protection class	2 (50V)	
Power-on delay	approx. 6 s after power on	

FA 45 Codereader V5

Optical data			
No. of pixels, sensor technology	640 (H) × 480 (V), CCD (S/W)		
Integrated measuring lighting	white light	white light or red light LED	
Integrated lens, focal length	6 mm	12 mm (focal position adjustable)	
Min. measuring distance in mm	20	20	
Min. field of view X *Y in mm	18 × 14	8 × 6	
Range of depth of focus	approx. +/- 5 % of meas. distance		
Mechanical data			
Length × width × height	64 × 45 × 45 mm		
Weight	approx. 170 g		
Ambient operating temperature	-0 °C 50 °C (80 % air humidity, not condensed)		
Storage temperature	-20 °C 50 °C (80 % air humidity, not condensed)		
Protection standard	IP 65/67		
Connections	plug M12 8-pin, Ethernet M12 8-pin, Process M12 5-pin		
Casing material	aluminium, plastic		
Vibration/Shock	EN 60947	EN 60947-5-2
